

1000 Islands Log

ED HUCK MARINE

Fall 2006

"Where Family and Friends Come To Play"

See us at the Toronto Boat Show

Hard to believe it's coming up, but there it is on the calendar ... January 12th through the 21st. Remember that our annual customer appreciation night is Saturday January 13th at the Sheraton, City Hall Room. A quick RSVP to carol@marina.ca by January 5th will help us make enough food appear for the occasion. Brian Michaels will be appearing (and disappearing) with his award winning illusions and magic

presentation. And while you're thinking boat show... book your room now. Calling (416) 361 1000 will get you the Sheraton and that unbelievable \$75 boat show

room rate. But hurry. They sell out every year.

You'll find us at either the Seadoo or Cobalt booth, so come see why Cobalt's won the "Best-Built Large

Runabout" from J.D. Powers six years straight.

And don't forget about the Boating for Children's Charity night on Friday Jan 12th. If you've taken advantage of this in the past you know it's the same great show plus food and drink minus about 25,000 other guests. A Very civilized way to take in the boats, visit with friends all for a good cause. Go to www.torontoboatshow.com/home.asp to order your advance tickets.

Fall in the Islands

Brand new from Cobalt for 2007

With the reputation Cobalt has, you might think they'd stand pat. Nope. They have four new models coming and they're all bowriders ... the 212, 222, 252, and the 302. All 4 boats are brand new from the water-line up that take innovation in hull design, storage and styling to a whole new level. We'll have these plus all the other Cobalt models at the Toronto Boat Show or sneak a peak at www.cobalt-boats.com/media/index.php or individual spec

sheets at www.marina.ca/sales.asp

Did you know that most of the boats leaving Cobalt's plant are retail sold? And because Cobalt's production is limited, making an early purchase decision can greatly enhance the opportunity to build your

own personalized Cobalt. Ask the Sales Department about our new Cobalt Platinum Service Package created as a great incentive to help with your Fall decision. Decide on

a new Cobalt before Jan 21st and we'll save you thousands on your storage and service bills over the next 3 years. This is in addition to receiving a 5-year motor and component and 10-year hull and deck warranty. The best extended warranty in the business... period.

The Brand New
Cobalt 302BR

New SeaDoo's

The Thousand Islands winter just got a little bit longer. No, there wasn't a climatic change ... but SeaDoo has a doozy new model out for 2007, the 215-horsepower Wake. It's all the Wake you remember, and then some. Wider handlebar driving position, more comfortable seating position, and better spray deflection are features on most of the 2007 models. New colors and graphics make it look as sharp as it handles. Can't wait until weather gets warmer? \$1000 down guarantees delivery of your choice of SeaDoo for spring. Need details? You can visit www.seadoo.com for all the 2007 doos.

Our Projects

No two summers look alike at Ed Huck Marine ...and we're not just talking about the weather. We made a lot of improvements in 2006 based on feedback from you last fall. We added the Scenic property next door and built new docks. We also opened our new general store with help from Katherine and Margaret and put in a new pass code entrance gate. The Service Department got a major facelift, and lots of loyal customers told us how they liked the "name plate" Customer Parking system. But, we need to know where to set our sights for next season. Please let us know what's important to you by adding comments to our enclosed survey or email us with your feedback attention scott@marina.ca or peter@marina.ca

EHM: How are we doing???

Now's the perfect time to remind you to fill out those annual Customer Surveys. It has a whole new look this year and only takes a couple of minutes to fill out. What do you have to lose? You tell us what we're doing right...and wrong ...and we'll enter your name into a random

draw good for a \$500 credit on your account. And don't worry. If you're brutally honest and we draw your name, you'll still win. We need to know what you think to make Ed Huck Marine better!

A big thanks also goes out to all the EHM employees who spend their summer making

sure you have a great experience. It's what we all have come to expect...but if you think someone went above and beyond...please let us know on your survey when you fax it back to us at 613 659 4286.

Last Summer's Events

Had a lot of fun this summer, didn't we? Even with your busy schedules, a lot of you found time to be here for our opening day weekend reception and Cobalt Singer Castle Cruise event. The SeaDoo ride for charity was a big hit again this year, raising

funds and giving rides for Sisters Inc. in Brockville. Thanks to everybody who gave their time, money and energy to make this event such a success...but we're not the idea people. Let us know on the annual survey what events you want us to host next summer.

New from Boston Whaler

The all-new 2007 200 Dauntless is the future of center console design. Low sleek dropping freeboard, stern activity platform and new functional helm console with lots of space for today's electronics. And the 190 Montauk is the new "do-it-all workhorse" with a cockpit big enough for play, work, fishing, or...just about anything you can do on the water. Packaged with a galvanized trailer, the 190 is worth every penny. The 200 Dauntless and 190 Montauk both come with

Pictured above: Whaler's new "Workhorse" 190 Montauk. Inset: the 200 Dauntless.

Mercury's quiet, super-reliable four-stroke motors to keep you going where you want to go (on less gas and no blue smoke) Check www.whaler.com for more info on these two boats and Whaler's full line. Want a great deal? Ask our Sales Department about specials on the few 2006 Whalers left over. But don't wait - as the 2007s come in...the 2006s are disappearing.

EHM Wallpaper

How can you keep the river close to you when it turns cold? You can freeze your toes off, or you can enjoy Carol's monthly wallpaper pictures to combat the symptoms of river withdrawal. We all get it come winter, but some do worse than others. Just email carol@marina.ca if you want to be added to her mailing list. Then you'll get an occasional shot taken by one of our customers. Which one? It's always someone different...maybe you! So get that film developed, or those picture cards transferred to jpegs - or whatever it is you do with digital cameras - and send them in! Sorry, we don't pay residuals, but you'll be happy knowing you've helped someone deal with their own case of withdrawal. Special thanks to Peter Heney for some of the great shots used in this newsletter.

**Last but not least,
thanks to all of you,
our customers for your
support year after year.
Scott and Peter want you
to know that You make
this all worthwhile**
